

GEORG BREUER

Wine profile

2012 RÜDESHEIM BERG ROSENECK RIESLING

Region

With its some 3000 Hectares, Rheingau is one of the smallest wine growing regions in Germany. South facing steep slopes are protected from the cold northerly winds by the Taunus Mountains, giving ideal ripening conditions.

Vintage

After the mild and moist December and January months, February brought record minus degrees with plenty of frost. March was overly warm and very dry, fortunately the weather in April balanced out resulting in a normal bud break at the end of April. Flowering was influenced in June through cool temperatures at night, however ripening began as on average middle of August. The grapes were in fantastic health till the end of October, so the harvest could be completed without complication.

Grape variety

The noblest grape variety in Germany, also acknowledged as one of the greatest varieties in the world ripens late and gives wines which are clean, have a crisp acidity, floral bouquet yet are powerful.

Soils

Weathered slate with loess and loam give ideal ripening conditions for Riesling which thrives on the high mineral content of the soil. It is also heat absorbing which is important in its ripening process. The grapes for this wine are sourced from the deep phyllite, clay and quartz slate soils.

Wine estate

Implementing a strict quality philosophy Bernhard Breuer turned the family-owned wine estate with its 34 hectares into a leading estate in the Rheingau. Today it is managed by his daughter Theresa Breuer and production manager of many years, Hermann Schmoranz, with the assistance of cellar master Markus Lundén.
