Wine profile

2019 RÜDESHEIM BERG ROTTLAND RIESLING

Wine growing area

The Rheingau covers approximately 3.000 hectares of vineyards and is one of the smallest wine growing regions in Germany. The southerly exposed vineyard sites protected by the Taunus mountain range are a reliable source of one of the finest Riesling wines of the country.

Vintage

After a very hot year and a dry winter, the vines started with a water deficit into the new vegetation year, which supposed to be another dry one. A very cool May was slowing down the vegetation, but the high temperatures in July bring back a few problems. In some vineyards the grapes get sunburn but luckily they did not affect the quality of the grape material. It was a very quick harvest because the ripeness of aroma and phenolic was on its point very early and there was no risk because of the weather. This vintage brings very aromatic wines with a nice acidity structure.

Grape variety

In terms of elegance and finesse Riesling is the country's premier grape. The vineyards along the Rhine provide for ideal growing conditions. With its distinctive aromatic profile, delicate structure and tangy acidity Riesling produces not only the finest German wines, it earns world-wide recognition as well.

Soils

Parcels of the vineyard site „Berg Rottland“ stretching into the village of Rüdesheim predominantly consist of deep loess soils, elsewhere shallow, gravely soils emerging from slate and sandstone prevail. The word Rottland derives from an old word meaning “preparing land for cultivation”.

Wine estate

Implementing a strict quality philosophy Bernhard Breuer turned the family-owned wine estate with its 40 hectares into a leading estate in the Rheingau. Today it is managed by his daughter Theresa Breuer and production manager of many years, Hermann Schmoranz, with the assistance of cellar master Markus Lundén.
