## Wine profile

### 2019 RÜDESHEIM BERG SCHLOSSBERG RIESLING

#### Region

With its some 3000 Hectars, Rheingau is one of the smallest wine growing regions in Germany. South facing steep slopes are protected from the cold northerly winds by the Taunus Mountains, giving ideal ripening conditions.

#### Vintage

After a very hot year and a dry winter, the vines started with a water deficit into the new vegetation year, which supposed to be another dry one. A very cool May was slowing down the vegetation, but the high temperatures in July bring back a few problems. In some vineyards the grapes get sunburn but luckily they did not affect the quality of the grape material. It was a very quick harvest because the ripeness of aroma and phenolic was on its point very early and there was no risk because of the weather. This vintage brings very aromatic wines with a nice acidity structure.

#### Grape variety

In terms of elegance and finesse Riesling is the country's premier grape. The vineyards along the Rhine provide for ideal growing conditions. With its distinctive aromatic profile, delicate structure and tangy acidity Riesling produces not only the finest German wines, it earns world-wide recognition as well.

#### Soils

Weathered slate with loess and loam give ideal ripening conditions for Riesling which thrives on the high mineral content of the soil. It is also heat absorbing which is important in its ripening process.

#### Wine estate

Implementing a strict quality philosophy Bernhard Breuer turned the family-owned wine estate with its 40 hectares into a leading estate in the Rheingau. Today it is managed by his daughter Theresa Breuer and production manager of many years, Hermann Schmoranz, with the assistance of cellar master Markus Lundén.

#### Wine description

Here immense power and finesse come together. Salty and juicy at the same time. A lot of mineral spiciness. Delicate scent of stone fruits and orange skin. A Riesling with elegant style and fine tannins. Very long lasting and with a monumental depth.

Alcohol 11,5% · Residual sugar 8,3 g/l · Total acidity 6,8 g/l
