Wine profile

2020 GB ROUGE – PINOT NOIR

Region

With its some 3000 Hectars, Rheingau is one of the smallest wine growing regions in Germany. South facing steep slopes are protected from the cold northerly winds by the Taunus Mountains, giving ideal ripening conditions.

Vintage

During the year, the winemakers mainly had to deal with drought stress in the vineyard. Although the vine with its long roots can compensate for drought, the now third dry season is clearly noticeable in three consecutive years. Fortunately, this did not affect the ripening of the grapes in the Rheingau area. The loose grapes of this vintage were healthy until harvest and had a fruity note.

Grape variety

Pinot noir grapes are grown around the world, mostly in the cooler climates. It is a difficult variety to cultivate and transform into wine. The grapes produce tightly packed clusters with a thin skin and low yield amount. It is up to the winemaker's skill to produce an elegant red wine what pinot noir is known for.

Soils

Deep, gravelly clay soils with layers of quartz and slate prevail in these southerly exposed steep vineyard sites.

Wine estate

Implementing a strict quality philosophy Bernhard Breuer turned the family-owned wine estate with its 40 hectares into a leading estate in the Rheingau. Today it is managed by his daughter Theresa Breuer and production manager of many years, Hermann Schmoranz, with the assistance of cellar master Markus Lundén.
